

Alfalfa Pellets

| Nutrients (dry matter) | Values |
|------------------------|----------------|
| Crude protein | 14-16% |
| Crude Fiber | 25-35% |
| ADF | 34-40% |
| NDF | 45-55% |
| RFV | 90-130 |
| Ash | Max 12% |
| MOISTURE | Max 12% |

100% dehydrated alfalfa, harvested and processed at its optimum vegetative stage, is processed into pellet format by high-pressure steam extrusion. The result is a product of noble raw materials and excellent quality.

PRESENTATION FORMAT

- In 40" HC containers.
- Package Weight: Bulk, Big Bags, 20 Kg bags
- Container Weight: 23MT.

STORAGE

- 2 years
